## Transport & Distribution Bluecard Course Outline

### **Aim**

Bluecard is a Skills Training Passport. It is a safety awareness program developed to train people to have a thorough understanding of the Occupational Health & Safety Procedures in the transport industry.

### **Designed For**

- ▶ People who require this competency to obtain a Certificate III in Road Transport, Warehousing and Transport Administration.
- ▶ People who have ***no experience*** in the transport industry.

### **One (1) day - 9 am to 12.30 pm.**

Minimum four (4) participants, a maximum of eight (8) participants per course.

- ▶ An introduction to the OH&S Act that will allow people to follow occupational health and safety procedures whether they be their own companies or their customers (TDT F1 97B);
- ▶ A simulated performance based assessment and written assessment to ensure competency in following the OH&S procedures (TDT F1 97B);
- ▶ Identification and understanding of the need for safe work method statements and participant contribution to OH&S in the workplace;
- ▶ Identification of reporting, assessing, risk identification and the control of hazards in the workplace using the NIP process;
- ▶ Pre trip inspection as a hazard identification, risk assessment and risk control process;
- ▶ Understanding the requirements and expectations of customers for work method statements, job safety analysis and communications;
- ▶ Provision of a safe work environment for all persons.

**Costs - All Pricing Includes GST** - \$165.00pp Group discounts (greater than 8 participants) available, please contact Fork Skills for more information.
